NURSING LEADERSHIP AND PATIENT OUTCOMES: CURRENT AND FUTURE STATES

La Trobe University and Albury Wodonga Health invites you to a Professional Development workshop with Assistant Professor Sonia Udod of the University of Manitoba, Canada.

A/Prof Udod is Principal Investigator of the Creating and Translating Evidence for Nursing LEADership (LEAD) and Health Services program (https://leadoutcomes.ca/). The program aims to advance healthcare leadership, nurses’ work environments, health systems, and healthcare policy.

This event is relevant for nurses, midwives, allied health and other healthcare professionals seeking improvement in leadership practices and health services through translating research knowledge.
